EDUCATION

SRM Institute of Science and Technology
B.Tech, Computer Science and Engineering

July 2019 - May 2023
9.29 CGPA

SKILLS

Languages:	JavaScript, C, C++, Python
Web Dev:	TypeScript, Next.js, React, PostgreSQL, Redis, Chakra UI/MUI, HTML & CSS
Tools/Platforms:	AWS, Vercel, GA4, Git, Firebase, Heroku, Figma, Chrome DevTools
Familiar:	Java, Solidity, Docker, MongoDB, React Native, Express.js, Node.js, SQL
CS Fundamentals:	Data Structures, Algorithms, OS, DBMS, CN, OOPs
Certification:	AWS Cloud Practitioner - Link

EXPERIENCE

SDE - 1 May 2023 - September 2023
Wall.app *Remote*

- **Boosted site efficiency** by 235% with advanced optimizations, achieving a 90+ Lighthouse score for SEO, Accessibility and Best Practices.
- Facilitated seamless transition for web2 users to web3 by introducing social logins (Discord, Twitter & Google) and a multi-wallet system, leading to a **120% rise in registrations** or 7,700 new users in 2 months.
- Revamped navigation with the implementation of a responsive search bar, allowing users to easily navigate between quests and projects. Optimized the rewards and leaderboard system with principled UI/UX design.
- Augmented platform utility with email login via magic links, improved referral tracking via UTM tag scripts on Google Analytics.

Software Developer November 2021 - May 2022
Xpert Finance *Remote*

- Designed and executed a full-stack website, bolstering company's online presence and streamlined user interactions, with a **30% decrease** in bounce rate.
- Spearheaded the creation of intuitive admin and client dashboards, optimizing workflow with the integration of MUI-Datatables.
- Successfully integrated a secure payment gateway, enhancing transactional efficiency and user trust.
- Leveraged a diverse tech stack including React, MUI-V5, Redux-thunk, Firebase and Figma to achieve seamless functionality and aesthetically appealing design.

PROJECTS

Mindflow [Website Link](#)

- Developed an **AI-powered image generation web-app** using the MERN stack and integrated OpenAI's DALL-E model, demonstrating reliability through managing over 200 unique images during testing.
- Managed over 500 images using Cloudinary, Ensured efficient image hosting and data integrity.
- Enhanced UI/UX with Tailwind CSS, making the application more appealing and user-friendly.

Groove [GitHub Link](#)

- A **web3 music streaming platform** built using React, Bootstrap and Solidity for the smart contract.
- Leveraged Hardhat as the Ethereum Development Environment and Metamask for blockchain integration and user authentication.
- React Router DOM for client-side routing and react-jdenticon for avatars.

ACHIEVEMENTS

- Earned Ethereum Git POAP Badge for open-source contribution - [Badge Link](#)
- 200+ questions solved on LeetCode
- 1000+ rating in CodeForces
- Participated in Bajaj Finserv's HackRx 2021
